# ST PIERRES PASSION FOR QUALITY

### Sushi made fresh to order

Our policy is to make fresh sushi, the way you like it, right until we close!

### Have you ever wondered why St Pierre's Sushi tastes different from other places?

Firstly, over the last 20 years we have developed a relationship with the best suppliers in Japan, and that's what creates the unique St Pierre's sushi flavour. Naturally brewed soy sauce, nori, wasabi, pickled ginger, miso, inari, sushi vinegar, Japanese mayo etc.

Those who have travelled to Japan will notice the subtle difference in taste and quality of St Pierre's Sushi. Infact, our ingredients are so important to us that we have been known to fly in products from Japan when we have run out of stock.

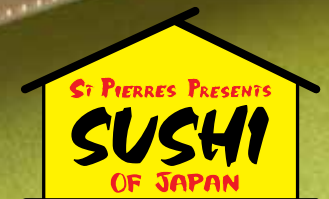

Secondly, we live in a beautiful country which offers the finest daily fresh produce such as salmon, avocado, chicken and all the other delicious flavours you find in our sushi. All these wonderfully fresh ingredients are delivered daily into our stores across New Zealand.
